ABOUT ME

Dedicated Computer Science Engineering student with hands-on experience in full-stack web development, AI-powered applications, and scalable software solutions. Skilled in React, Node.js, MongoDB, and cloud/dev tools with experience building intelligent platforms using modern web technologies. Passionate about solving real-world problems through AI-driven and user-centric applications while continuously improving development and problem-solving skills.

EDUCATION

Bachelor Of Engineering, CSE-8.02 CGPA | PES College Of Engineering, Mandya | 2023-2027

CBSE-12th (PCM) - 85.6% | SKP VIDYA VIHAR DEOGHAR | 2022

CBSE-10th - 85.2% | DAV PUBLIC SCHOOL DEOGHAR | 2020

PROJECTS

Deoghar Kitab – AI Powered Used Book Marketplace

🐙 [GitHub](#)

[DEMO LINK](#)

Tech Stack: React.js, Node.js, MongoDB, Express.js, JWT Authentication

- Designed and developed a full-stack marketplace platform enabling users to buy and sell pre-owned books with secure authentication and personalized user experience.
- Integrating Google Maps API and AI-based image classification (Vertex AI) for automatic issue detection, smart routing, and priority handling.
- Developing RESTful APIs and analytics dashboard to enable real-time tracking, performance monitoring, and data-driven decision making.

BimaSetu – Smart Insurance Claim Platform

🐙 [GitHub](#)

[DEMO LINK](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Generative AI, REST APIs

- Developed a MERN-stack platform for digital insurance claim submission, tracking, and management with secure user authentication.
- Integrated AI-assisted document analysis and risk assessment features to support fraud detection and claim verification workflows.
- Built role-based dashboards and RESTful APIs to improve transparency, claim processing efficiency, and administrative control.

Netflix Clone – Streaming Platform UI

🐙 [GitHub](#)

[DEMO LINK](#)

Tech Stack: React.js, Firebase Authentication, TMDB API

- Developed a Netflix-inspired streaming web application with dynamic movie listings, secure Firebase Authentication, and responsive UI design for seamless cross-device accessibility.
- Implemented TMDB API integration to fetch and display real-time movie data with categorized content browsing and interactive user experience.
- Designed personalized user sessions and optimized frontend performance for smooth content navigation.

EXPERIENCE

[Certificate](#)

[WRP Report](#)

XPro–Azure DevOps Initiative

- Completed hands-on training in Azure DevOps, CI/CD concepts, Agile methodologies, and modern software development workflows.
- Worked with Azure Repos, Git version control, and collaborative development practices for project management and code integration.
- Participated in professional development sessions, mock interviews, and team-based activities to strengthen workplace readiness.
- Gained practical exposure to SDLC processes, DevOps culture, and industry-standard software delivery practices.

SKILLS

- Programming Languages : Java, JavaScript, C, SQL
- Frontend Technologies : HTML, CSS, React.js, Tailwind CSS
- Backend Technologies : Node.js, Express.js, REST APIs
- Databases : MongoDB, MySQL
- Tools & Platforms : Git, GitHub, Postman, VS Code
- AI & Emerging Technologies : Generative AI, Prompt Engineering

CERTIFICATIONS

- Generative AI: Introduction and Applications – IBM (Coursera) | [Credential](#)
- Hardware and Operating System Essentials – IBM Skills Network | [Credential](#)
- Azure DevOps Initiative – Employability.life XPro Program | [Certificate](#)
